

Hose end meter-digital

oval gears-EF

Item number: Badger LM OG-CND
EAN:
Discount group: D

Technical data

Connection: G 1/2" female
Media: lubricating oils
Calibrated flow capacity (l/min): 0 - 10
Uncalibrated flow capacity (l/min): 0 - 30
Viscosity (mPa s): 8 - 2000
Nominal pressure (bar): 70
Temperature range (°C): -10 / +50
Material of the casing: aluminium die casting
Tolerance (%): ± 0,3
Repetition tolerance (%): ± 0,3
Display: digital, with three digits and two decimal digits
Batteries: Lithium 1/2 AA

Specification

- Can be calibrated for public sales (EF)
- Precalibration certificate
- Angled dispensing flex spout
- Anti-drip nozzle, automatic shut-off
- Rubber protection ring
- Swivel joint, G 1/2" female

Notes

- Other liquids, i.e. anti-freeze and windscreen cleaning liquid, on request
