

Technical Data Sheet | BT100G

Poly Trolley with removable grid | 4 x 25ltr drums

The BT100G is a compact trolley designed to carry 4 x 25ltr drums and is manufactured from medium density polyethylene which ensures excellent chemical resistance. This lightweight unit is mounted onto four castor wheels - two rear castors with brakes - allowing for easy manoeuvring. The included removable grid prevents placed drums to soak in any spillages contained in the sump.

Product Specifications

External Dimensions (WxDxH)	1000 x 700 x 320mm (1000mm top of handle)
Unit Weight	23kg
Sump	85ltr (100ltr without grid)
UDL	100kg
UK Pack Size	6
Export Pack Size	6
